

VS10

10,000 lb. capacity

- 1 Maximize service capabilities and revenue potential
- 2 Minimize the need for truck adapters by meeting a wider range of OEM recommended pick up points
- 3 Provides versatility at installation for service facilities with spacial constraints
- 4 Allows technician to disengage both columns simultaneously
- 5 Prevents vehicle damage from being raised too high
- 6 Provides long lasting durable finish
- 7 Provide added security against vehicle door damage

The Automotive Lift Institute (ALI) certifies that the VS10 described herein complies with the applicable provisions of the American National Standards ANSI/ALI ALCITV 2006 and are Third Party Validated by the ETL Testing Laboratory.

Your Lift – Your Choice.

VS10 can also be installed in an asymmetric only configuration. Please see Installation Manual for installation instructions.

Versymmetric® Technology

Versymmetric® Technology

The VS10's specially engineered Versymmetric® 3-stage front arms safely lift symmetrically and asymmetrically within the same service bay .
