

D-10CX

Two Post Lift

The D-10CX is a 10,000 pound two post lift that has a proven design and produces real results in virtually any type of service scenario. This vehicle lift is designed to be the workhorse of any automotive repair business and will be an asset to any repair facility it is installed in. This two post lift will give you years of trouble free service at an affordable cost. Each component of the lift was engineered better, stronger, and more economical to pass the savings to you.

The D-10CX is making its way into the premiere commercial two post lift and has become a favorite among shop owners. With an overall width of 145" this auto lift will fit perfectly into most repair bays. See below for all the exciting features this lift has to offer.
